JUNIOR STEVY GATSOUNDOU

Casablanca, Morocco · +212 6 12 43 56 68 · j.gatsoundou@hestim.ma · LinkedIn: junior-stevy-gatsoundou · GitHub: gatsoundoujuniior-netizen

PROFILE

AI Engineering student focused on Generative AI, multi-agent systems, RAG and end-to-end AI systems. Hands-on experience designing, building and deploying practical AI solutions in recruitment automation and AML/PEP screening across 13 countries. Top 13% at the 2026 Reply AI Challenge (1,975 teams). Available for a 6-month end-of-studies internship from February 2027.

PROFESSIONAL EXPERIENCE

Holokia — Apr – Aug 2026

AI & Automation Engineer Intern · Casablanca · Hybrid

- **Built the AI CV-scoring agent** (Groq Qwen3-32B) that scored 63 CVs out of 100, inside AutoFlow, a full-stack recruitment platform (React 19, FastAPI, Supabase).
- **Built a meeting transcription and reporting agent** (Whisper) that generated automated structured minutes.
- **Engineered an end-to-end GDPR consent flow** and led the n8n → FastAPI migration with CI/CD (GitHub Actions, Docker).

ScreenEdge Africa — May – Aug 2026

AML / RegTech Engineer Intern · Data & AI · Remote

- **Built an end-to-end multi-source PEP screening agent** (Tavily → Serper → Wikipedia → OpenSanctions) with automatic LLM fallback across 13 countries: 204 qualified PEPs, 90.8% recall.
- **Automated collection** from official sources: 31,500+ PEP candidates in 6 hours.
- **Engineered a PostgreSQL audit trail** logging every LLM decision (model, prompt, output, latency) for full AML/KYC auditability.

PERSONAL PROJECTS & COMPETITIONS

Reply AI Challenge 2026: AI Fraud Detection — *Top 13% of 1,975 teams*

Designed a 3-tier multi-agent architecture: parallel transaction screener (GPT-4o) → validator → Chief Fraud Officer (Claude). Flagged €30,600 of fraudulent transactions across 2 completed datasets, on a $40 API budget. Team of 2.

Indoor Air-Quality Monitoring: Embedded AI (TinyML) — *2nd place · TF Lite, Raspberry Pi 4*

Built a real-time edge IoT system (CO_2, temperature, humidity) on 6,200 real measurements: 96.4% accuracy, F1 77.6%, <0.7 mJ/inference; on-anomaly transmission cutting data sent by up to 97%. Led a 4-person team.

EDUCATION

HESTIM — 2025 – 2027

State Engineering Degree, Computer Science & AI · Casablanca

EMG — 2024 – 2025

State Engineering Degree, Computer Science · Rabat

ESSTI — 2022 – 2024

Preparatory cycle · Rabat · Best Company / Integrator Project award

SKILLS

- **AI / GenAI:** Python, LLMs, RAG, LangChain, LangGraph, prompt engineering, scikit-learn
- **Backend / Data:** FastAPI, SQL, PostgreSQL, ChromaDB
- **Cloud / DevOps:** Docker, Git, GitHub Actions (CI/CD), AWS, Linux
- **Big Data:** Apache Spark, Hadoop, HDFS
- **Soft skills:** problem-solving, teamwork, adaptability, autonomy
